CopyRight Matematik i vanskeligheder

Mange elever oplever, at matematikken er i vanskeligheder.

Elever som oplever, at matematikken er i vanskeligheder, har brug for genkendelighed og gentagelser.

Jeg har lavet dette spil "TerningMatch" til eleverne hvor matematikken er i vanskeligheder.

Rigtig god fornøjelse.

## **Regler: (Eleverne skal have 6 terninger pr. person)**

- Alle kortene samles i en bunke
- En elev vender det første kort
- Eleverne skal nu kaste alle sine terninger, og hurtigst muligt få den samme talkombination som kortet viser
- talkombinationen skal nødvendigvis ikke kunne laves over et kast
- Eleverne gemmer hele tiden de terninger der passer til talkombination, og kaster de resterende terninger igen
- Den elev der først får samlet talkombination med sine terninger vinder kortet
- Spillet slutter når alle kortene er lavet
- Vinderen er den der har flest kort i sin egen bunke
