Hftet ”Matematikk-katten pluss nivå 1” er første hefte i serien om pluss, og er laget for elever som opplever at matematikk er vanskelig. Elever som føler at matematikk er vanskelig trenger at oppgavene er gjenkjennelige og at det er mange gjentakelser. Hftet har derfor mange like oppgaver.

God fornøyelse med bruk av heftet.

## **Om «Matematik i vanskeligheder»:**

«Matematik i vanskeligheder» er dansk og lager produkter og undervisningsmateriell til elever som synes at matematikk er vanskelig. Det jobbes ut fra en positiv filosofi om at det er matematikken som er problematisk, og ikke eleven selv som har et problem.
