Mange elever oplever, at matematikken er i vanskeligheder.

Elever som oplever, at matematikken er i vanskeligheder, har brug for genkendelighed og gentagelser.

Jeg har derfor lavet disse flotte Geophæng til klassen.

Geophæng v1. består af 11 flotte plakater, som både vil hjælpe eleverne med at huske de forskellige geometriske figurer, og så vil de pynte i klasselokalet.

Rigtig god fornøjelse.
